

Environmental Policy

- The employees and individuals working on behalf of Interplex Industries are committed to continuous improvement of the care of the environment & the prevention of pollution.
- Interplex Industries ensures that all its activities are carried out in conformance with the relevant environmental legislation and other requirements to which we subscribe.
- Interplex Industries seeks to minimize waste, promote recycling, reduce energy consumption, reduce harmful emissions and, where appropriate, to work with suppliers who themselves have sound environmental policies.
- An essential feature of our environmental management system is a commitment to improving environmental performance.
- In order to ensure the achievement of the above commitments, Interplex Industries has implemented an environmental management system which satisfies the requirements of ISO 14001:2004
- This Policy and the obligations and responsibilities required by the environmental management system have been communicated to all employees and are available to the public.

Environmental Objectives

- The prevention of pollution
- Employee participation in the implementation and usage of environmental systems and programs.
- Consideration of the environment at applicable stages of product and process improvement.
- To meet all legislated environmental requirements
